☎ +91 6382801974

📍 Coimbatore, Tamil Nadu

Profile

Enthusiastic Artificial Intelligence and Machine Learning student with a strong foundation in Python, Machine Learning, Flask, MERN Stack, and MongoDB. Familiar with web application development, database management, and AI-driven technologies. Demonstrates strong problem-solving skills, analytical thinking, and a proactive approach to learning and adapting to emerging technologies. Passionate about applying technical knowledge to develop innovative software and artificial intelligence solutions.

Education

B.Tech Artificial Intelligence and Machine Learning

2023 – 2027 | Coimbatore

SRI SHAKTHI INSTITUTE OF ENGINEERING AND TECHNOLOGY, COIMBATORE
7.51

HSC, TRINITY MATRICULATION HIGHER SECONDARY SCHOOL

2023 | Coimbatore

86.3%

Technical Skills

Programming Languages: Python, JavaScript, SQL

Web Technologies: HTML5, CSS3

Frameworks & Technologies: Flask, React.js, Node.js, Express.js, MERN Stack

Libraries: NumPy, Pandas, Matplotlib, TensorFlow, Keras

Tools: GitHub, VS Code, Postman, MongoDB Atlas

Databases: MongoDB, MySQL

AI & Machine Learning: Machine Learning, Generative AI, Data Preprocessing, Model Training, Model Evaluation

Soft Skills: Problem Solving, Team Collaboration, Communication, Adaptability, Time Management, Analytical Thinking

Areas of Interest

Machine Learning | Artificial Intelligence | Full Stack Development | Generative AI | Data Analytics

Projects

SMART FARMING ASSISTANT, Python, Flask, MongoDB, Gemini API

Jun 2025

- Developed an AI-powered agricultural platform providing crop recommendations, disease detection, fertilizer suggestions, weather forecasting, and market price intelligence for farmers.
- Built machine learning models using soil nutrients and environmental parameters to recommend suitable crops and improve farming productivity
- Integrated Gemini API, OpenWeather API, and MongoDB to deliver intelligent agricultural insights, chatbot assistance, and personalized farming recommendations.

AGRISTORE – Agricultural E-Commerce Platform, MongoDB, Express.js, React.js, Node.js

Jan 2026

- Developed a full-stack agricultural marketplace enabling farmers and customers to buy, sell, and manage agricultural products through a modern web platform.
- Integrated secure payment gateways, JWT authentication, inventory management, and order processing functionalities using RESTful APIs.
- Designed an interactive Admin Dashboard for managing users, products, categories, orders, and transactions, ensuring scalability and efficient business operations

Achievement

Finalist – Flinders University AI Competition, Flinders University

Recognized among the top-performing participants for developing innovative AI-based solutions.

Certifications

Natural Language Processing (NLP) Workshop — Issuer: Coimbatore Institute of Technology | Date: 2025

AI & Prompt Engineering Workshop — Issuer: Sri Shakthi Institute of Engineering and Technology | Date: 2024
